

PRESS RELEASE

Halmstad, 10 January 2013

Power production December and total 2012

Power production in December was 40.8 GWh. Of this, 10.5 GWh refers to the company's share in the Jädraås wind farm. Production at the company's wind farms in southern Sweden were slightly below target, but this was offset by the increased production at the Jädraås project.

The total production 2012 was 351.6 GWh, an increase of approximately 43 per cent compared to total production 2011 (246.5 GWh).

About Arise Windpower

Arise Windpower is one of Sweden's leading companies in onshore wind power. Its business concept is to sell electricity generated at the company's own wind turbines. The company's target is to have 1,000 MW of onshore wind power constructed and under management by 2017, of which 500 MW will remain in the ownership of the company. Arise Windpower is listed on NASDAQ OMX Stockholm.
