

PRESS RELEASE

Halmstad 2 December, 2013

Record output in November, 71.9 GWh

Better than normal winds in November resulted in a total electricity production of around 71,900 MWh, which is 10 per cent over budget. The outcome in the same month the previous year was around 45,800 MWh.

Out of the total monthly production, 36,100 MWh refers to company-owned wind power and 35,800 MWh to jointly owned wind power.

The fourth quarter is normally one of the strongest. The first two months of the quarter were well in line with expectations.
