

PRESS RELEASE

Halmstad 9 November, 2015

Construction start for Ryssbol wind farm, 12 MW

As previously announced, an agreement has been reached with KumBro Vind AB regarding turnkey delivery of six wind power turbines with a total output of 12 MW. The agreement was conditional, subject to a positive decision by the owners of KumBro Vind AB (the municipalities of Kumla and Örebro).

Construction can now begin with the goal of all turbines being erected and commissioned during the autumn of next year.

After turnover of the wind farm to KumBro, Arise will be responsible for managing the wind farm for a period of five years. Arise will consequently have approximately 500 MW under its management, of which roughly 50 percent is on behalf of external clients.
