

PRESS RELEASE

Halmstad 20 July, 2018

Arise AB exceeds 1 000 MW in total managed wind power capacity

Arise has been trusted with the assignment to manage yet another large wind farm. The wind farm will have a total capacity of 235 MW upon completion and is located in Northern Sweden. The investment is made by, among other, Green Investment Group, a specialist in green infrastructure principal investment and part of Macquarie Group.

For Arise, it is another important step to continue to grow our asset management business. We see significant growth potential both by being awarded the trust to manage wind farms we develop in-house and sell but also through assignments such as this, where we are awarded the trust independently from the development and sale of the project.

Halmstad 20 July, 2018

ARISE AB (publ)
